

## Technology Coordinator Assembly Report Oct 2, 2015

It has been a wild and wonderful ride these past 12 months, enhancing the Area 9 website, supporting the technology needs of the members and developing a sense of direction for the newly modified coordinator position, moving from being only a webmaster to a technology coordinator.

I am grateful to the panel members for being supportive and willing to learn about the tools we have to better include all AI-Anon members in Florida North Area 9. I am hopeful that as we progress through the next 2 years, that we may further define and enhance our communication and collaboration. To continue to grow the website as a portal for Area 9 information, and use of google email, documents and video conferencing to better connect and include members.

Our Chairperson Cindy J. will be announcing a Task Force to define the scope of the technology coordinator position and the foundation. direction and guidelines to support the consistent transition from panel to panel. Panel 52 started this process and with the Panel 55 Task Force we hope to define a path that is consistent with the AI-Anon principles while encouraging utilization of the tools available from the rapidly advancing world of technology.

I always appreciate feedback about what you like or what you don't like, what works for you and what does not work for you. It is getting to know the member's needs that allows me to better focus my toolset on creating not only necessary and helpful structures, but things we can have fun with as well.

Thank you for the opportunity to serve the members of AI-Anon Area 9 Florida North.

Roger D.  
Technology Coordinator  
Panel 55  
Area 9 Florida North
