

Technology Coordinator Report - 2016 May Assembly

Coordinators and Officers continue to learn and use the Google Apps. The website continues to be updated as needed. The 2016 AI-anon Conference integration with the Area 9 website is working well and providing order information to organizers in useful spreadsheet format.

Analysis of technology and how it relates to our Area 9 functions and growth, will be the focus of 2016.

Technology Coordinator

Roger D
