

Archivist Appreciations
AWSC February 2019

**“Focus on what you can do, then
do it with all your heart.**

Lois Wilson

It has been an amazing journey. In 2018, our team dedicated over 60 hours of time, scanned over 2000 pages of documents and captured 50 photos.

As a result, we will be moving from a 5' by 10' to a 5' by 5' storage unit in 2019.

Also, instead of being viewed by one archivist if they are asked to research something, these items are now accessible to all members of Al-anon.

As we observed the devastation caused by Hurricane Michael in our Panhandle, it became even more clear how important our work to preserve the archives through digitizing continues to be.

Our story boards are safer now.
Rather than being kept protected in plastic garbage bags,
they are in portfolios.

These cases also make them easier
to transport to events.
